Ideation is the creative process of generating new ideas which can be accomplished through a variety of ideation techniques, such as brainstorming and prototyping. If done right, ideation is what helps founders and executives determine the right problem to solve and how to solve it.

In this program students can able to improve their ideas with the methods for example brainstorming, sketching, SCAMPER and prototyping.

For example Amazon's "Prime" two day delivery service is an example of ideation being used to address the question of how to serve consumers more efficiently.

### SUMMARY REPORT

Over the years, chemicals used in agriculture have caused extensive damage to the quality of soil, crops, water and to human and animal health. We are now striving to go back to organic and natural farming techniques. A key ingredient of organic farming, Panchagavya, has been handed down to us from our ancestors and has been used successfully over the generations.

Panchagavya or Panchakavya, is made from the blend of five cow-derived products. In Sanskrit *Panch* mean five and *gavya* means cow; hence the name Panchagavya. Panchagavya has uses, not only in the field of agriculture, but can also be used for the improvement of human and animal health.

For example, in plants Panchagavya promotes growth, yield and immunity and is also an organic pesticide. For animals, Panchagavya stimulates the production of anti-bodies increasing immunity. In humans, Panchagavya has been reported to increase appetite, heal wounds, and as a cure for psoriasis and white patches.

Panchagavya is an organic product produced by using five different by-products of cow like cow dung, cow urine, cow milk, cow ghee, cow curd and other ingredients. It has the potential to play the role of promoting growth and providing immunity in plant system thereby confers resistance against pest and diseases. Panchagavya contains several nutrients i.e. macronutrients like N, P, K and micronutrients which are required for the growth and development of plants and also contains various amino acids, vitamins, growth regulators like Auxins, Gibberellins and also beneficial micro organisms like pseudomonas, azatobacter and phosphor bacteria etc.

NAME OF THE PARTICIPANTS : *SKUMARAR*  
DEPARTMENT : *Biochemistry*  
DATE : *17/02/21*

NAME OF THE COLLEGE : *Sengunthar Arts & Science College*  
DESIGNATION : *Student*  
VENUE : *Biochemistry Lab*

1. How useful did you think this event was for you?  
(please circle the appropriate number where 1 = not at all useful and 5 = extremely useful)

1	2	3	4	5
---	---	---	---	---

2. Do you think this venue was appropriate?

Yes	No
-----	----

3. Did you receive all the information you required at this Venue?

Yes	No
-----	----

4. If you attended (if appropriate) any of the question and answer sessions do you agree that the, Tutor / Leader / Instructor provided the information asked for in these sessions.  
(please circle the appropriate number 1 = disagree and 5 = completely agree)

1	2	3	4	5
---	---	---	---	---

5. How would you rate any workshops attended :  
(please circle the appropriate number where 1 = not at all useful and 5 = extremely useful)

1	2	3	4	5
---	---	---	---	---

6. Would you like to attend any further Conference / Training / Courses?

Yes	No
-----	----

7. ANY SUGGESTIONS : *GOOD*

Respected Sir,

**Sub: Art From Waste Program -Reg.**

This is bring to your kind notice that we have planned to conduct Art From Waste Program on 07/12/2021. Please, accept our request and permit us to conduct the programme in Biochemistry Laboratory.

Thanking You,

Yours Faithfully,

  
4/12/21

## SUMMARY REPORT

In order to achieve the objectives it is necessary to formulate certain programmes and follow-up has to be done efficiently.

- Create awareness among students to use the waste products in best possible manner.
- Various things can be put to different uses.
- More of awareness and efforts combined together to make variety of products.

### Advantages /uses:-

- Helps in generating the awareness and building the attitude to take up activities in real world.
- Controlling the amount of waste sent into landfills.
- Enables the students to give this creativity & innovation a shape.
- Reduces the destruction of forest & other eco – system.
- Helping the society and nation in conserving our nature.
- Keeping our planet a much safer place for coming generation.
- Developing the sense of using ecosystem.

### VARIOUS WASTE MATERIAL USED FOR MAKING USEFUL PRODUCTS

• Old Newspaper • Notebooks and chart paper • Cardboard and book cover • Paper plates, spoons and disposable glass • Pens and refills • Toothpicks and matchsticks • Dry stem of plants and trees • Plastic bottles • Strings and sequences, etc.

Along with these a large number of products are also being used which are somehow felt to be useless.

### SOME OF THE IMAGE OF PRODUCTS MADE OUT OF WASTE
